### MCCRORY 500 LINING SYSTEM

The McCrorry 500 Lining system is a proprietary 2 part, 100% solids lining, based on an in-house developed epoxy-phenolic novalac resin that offers various benefits over comparable alternatives, including:

- Quick cure time: McCrorry 500 is capable of curing even while submerged
- Superior adhesion to steel surfaces due to its dilatant properties
- Able to be wet-applied for touch up and patching
- Increased durability and longevity
- 6 – Year warranty that includes as-needed inspections and touch-ups

If you are interested in scheduling a tank inspection or would like additional information, please contact McCrorry Engineering at:
